PROFILE

A proactive BE student at the Muffakham Jah College of Engineering and Technology with a passion for problem-solving and innovation. Motivated individual pursuing opportunities in Python, Web development, Software Development, Machine Learning and Artificial Intelligence. With solid foundations in programming languages such as C, Python, Java, HTML, CSS, and software development methodologies, coupled with hands-on experience in developing web applications and implementing machine learning algorithms. Committed to continuous learning and innovation, seeking to growth and excel in a collaborative environment while making meaningful contributions to cutting-edge projects.

EDUCATION

M.J.C.E.T | Hyderabad, India

Sep 2021 – Present

BE Artificial Intelligence and Machine Learning

Key Modules: Data Structures and Algorithms, Operating Systems, Automata Language, Software Engineering

M S Junior College | Hyderabad, India

June 2019 – April 2021

High School

Percentage: 93.4

Nalanda Public School | Hyderabad, India

June 2010 – March 2019

10th

I.C.S.E

Percentage: 84.6

ACHIEVEMENTS

- CS50 Certificate holder, showcasing proficiency in foundational computer science concepts and problem-solving skills from Harvard University's renowned CS50x course.
- Python and ML certified.

ADDITIONAL SKILLS

- **Languages:** English (*Fluent*), Hindi (*Fluent*), Urdu (*Fluent*)
- **Microsoft Office:** Proficient in Word, Excel, and PowerPoint
- **SQL:** Proficient in writing complex queries, management databases, and optimizing database performance.
- **HTML, CSS, JavaScript, React, MongoDB, NodeJS :**
Proficient in HTML, CSS, and JavaScript with hands-on experience in building responsive web applications. Skilled in modern web development technologies including React, MongoDB, and Node.js for creating dynamic and interactive user interfaces.
- **Machine Learning (ML):** Experienced in implementing algorithms such as regression, classification, and clustering.
